## THE TOP-SELLING COVER LIFTS IN THE WORLD

*No manufacturer makes better spa cover lifts than Leisure Concepts. The innovation starts with our product designers who envision cover lifts never before seen in the marketplace. Then, our manufacturing team realizes that vision by utilizing the highest quality materials and state-of-the-art processes. The results are cover lifts that are stylish, easy to install, fit most spas and exceed consumer and dealer expectations—without exceeding their budgets.*

Comes standard  
with a TowelMate

With a Euro-styled  
composite bracket, our  
CoverMate I outsells every  
other lifter in the industry

Patent No.5,996,137

## CoverMate I

### THE MOST RECOGNIZED LIFT IN THE INDUSTRY

Step up your cover lift offering with the CoverMate I. This is simply the highest quality and most sold cover lift on the market. Its time-tested performance, attractive appearance and obvious quality are apparent to everyone desiring a no-hassle cover lift. Enjoy great customer satisfaction with the CoverMate I.

### FEATURES & SPECS

- + Requires just 10 to 15 inches of clearance behind the spa and 5 inches on each side
- + Available with specialty brackets that are designed specifically for certain spa brands
- + Available with extended pivot arms or extended coupler bar for spas over 8 feet in length or width
- + Available with extended brackets for spas with a corner radius larger than 12 inches
- + Powder-coated, aluminum tubing with easy-to-install, non-corrosive composite brackets
- + Comes standard with a TowelMate accessory for hanging up to three towels right where they are needed most

## CoverMate II & II Understyle

### OUT-OF-SIGHT PEACE OF MIND

These models allow the open cover to rest in a lower position for a slightly less-obstructed view. With two mounting systems to choose from, the CoverMate II can be screw-mounted low on the spa, or simply slid underneath for spas with weaker skirts using the Understyle bracket system.

### FEATURES & SPECS

- + Requires just 18 inches of clearance behind the spa and 5 inches on each side
- + Powder-coated, aluminum tubing with easy-to-install, non-corrosive mounting brackets
- + Understyle system uses two aluminum brackets and 7-inch base plates that simply slide under the spa
- + Comes standard with a TowelMate accessory for hanging up to three towels right where they are needed most
- + Works on spas up to 8 feet in length or width and 40 inches in height

## CoverMate Vanish XL

### EASY HANDLING AND A LOW-PROFILE VIEW

Add this unique lifter to your product lineup and have all the bases covered for your customer needs. Part of our Next Generation Series, the exclusive design of the CoverMate Vanish XL drops the cover into a low position behind the spa allowing a 360-degree view. The side-positioned, cover mounting brackets eliminates racking and allows effortless opening and closing that is velvet-smooth. The CoverMate Vanish XL is in a class of its own in design, quality, and function, making it a **MUST** for every showroom.

### FEATURES & SPECS

- + Requires just 25 inches of clearance behind the spa and 5 inches on each side
- + Low-profile positioning provides a near zero-obstructed view
- + Exclusive design creates a clean look by eliminating the need for a middle cross bar
- + Strong, glass-reinforced nylon cabinet brackets with easy-to-install, powder-coated aluminum cover brackets prevent corrosion
- + Ideal for spas up to ten feet
- + Hydraulic shocks provide effortless opening and closing
- + Zero racking allows smooth, fluid opening and closing of the spa cover
- + Quick and easy installation

CoverMate Vanish XLR and XLR-P are available for raised back spas such as the Jacuzzi 400 series and similar.
