

Umbrella Skin Removal

Installation Instructions - Updated as of 12/02/11

Step #1

With Umbrella in the closed position, turn crank handle counter clockwise to loosen umbrella rope. Untie knot at base of Umbrella Cage Assembly (See Fig. 1).

Step #2

Remove the barrel bolt that attaches the umbrella cage to the umbrella knuckle and remove Umbrella Cage Assembly. (Use 1/8" Hex Key and a Philips screwdriver) (See Fig. 1).

Step #3

Lay the Umbrella Cage Assembly flat on the floor and remove each Umbrella Skin Corner from the Cage Arms (See Fig. 2).

Step #4

Lay the new Umbrella skin over the Cage Assembly and insert each Cage Arm into the pockets on the under side of the Umbrella Skin.

Step #5

Insert the umbrella rope into the hole at the top of the Umbrella Cage Assembly and attach to the Umbrella Knuckle using the Barrell Bolt previously removed in Step #2 (See Fig. 1).

Step #6

Re-tie the knot at the base of the Umbrella Cage Assembly and turn the crank handle clockwise to tighten the umbrella rope (See Fig. 1).
